KLA-D1212

Inkline-Line Arrays

The Kasper KLA-D1212 Line Array Speaker is a high-performance compact line array system designed for powerful and precise sound reinforcement. Engineered for professional installations, it delivers wide coverage, high output, and excellent clarity, making it ideal for scalable sound systems.

HANGING LINE ARRAY | HIGH POWER HANDLING | BUILT-IN RIGGING POINTS | WIDE COVERAGE | DURABLE CONSTRUCTION

KEY FEATURES:

- Compact line array design
- High power handling
- Built-in rigging system
- Wide sound coverage
- Durable professional construction
- Reliable performance for installations

IDEAL FOR:

AUDITORIUMS

LIVE EVENTS

CONCERT VENUES

HOUSES OF WORSHIP

Speaker Type :	Dual 12" + Compression Driver, Passive /Biamp
Frequency Response :	50Hz – 19KHz (-10db)
Impedance :	LF at 4Ω / HF at 8Ω
Watts :	1200 RMS Watts/ 1600 Watts Peak Power
Max SPL :	135 dB
HF :	1.7"
Voice Coil :	1"
Directivity :	100° x 80°
LF :	12" x 2
Voice Coil :	4″ ferrite driver
Crossover Point :	1.2KHz
Input :	2 x NL4
Housing :	Marine Ply, Polyurea Painted
Rigging Points :	Integrated Rigging Hardware
Dimension (WxHxD) :	(920x 340x 452) mm
